

Sleeveless shirt, trousers and jacket for Living Dead Dolls

The patterns should be printed on A4 paper. If Letter size is used, make sure the pages are not resized during printing.

The shirt and trousers have the opening on back, so you can use snaps and still avoid visible bulges. The jacket front is closed with two snaps. There is no collar pattern for the jacket. The jacket in the photo has a collar made of a rectangular strip, but you can modify the front and collar as desired.

When cutting the shirt front, fold the fabric, place the edge of the pattern marked as "FOLD" on the fabric fold, and cut the piece.
