

Coat for Kindi Kids dolls

The pattern should be printed on A4 paper. If Letter size is used, make sure the pages are not resized during printing.

This pattern has very narrow seam allowances. The recommended method is to treat the fabric edges with some sort of fabric hardener to prevent fraying and to allow stitching close to the edges.

The easiest way is to sew the sleeves first (see below) as you can use a sewing machine for doing it. Then sew the sleeve and side seams. If you want to sew ribbon to the cuffs, it should be done before sewing the sleeve and side seams.
