

## A-line dress for Kindi Kids dolls

The pattern should be printed on A4 paper. If Letter size is used, make sure the pages are not resized during printing.

This pattern is meant to be used with fabric that will not fray. There are no seam allowances as only the shoulder seams need to be sewn. If you want to use a lining, add seam allowances. Close the back with velcro, snaps or buttons, depending on your preference and the age of the doll's owner (use velcro, if the dress will be handled by a small child).

If the pattern in the fabric needs to be upright on both sides, front and back, cut the side seams of the pattern as shown in the picture below, so you will have 3 separate pieces. Add seam allowances to the sides. Position the 3 patterns on the fabric as required.
